SUBJECT INDEX TO VOLUME 7

A

Adrenal gland(s), of rats,relation to effects of hypervitaminosis A, 85
Alanine metabolism, in man, effect of physical exercise, 611
Amino acid(s),
imbalance, effect of hormones in rats, 633
metabolism, in man, effect of physical exercise, 611
supplementation, of proteins, effect on growth, body composition and protein utilization of kittens, 621
_____, of rice and wheat diets in rats, 94
Ammonia metabolism, in man, effect of physical exercise, 611
Amylase, inhibitors in legume seeds, 169
Atherosclerosis, in rabbits, comparison of various dietary carbohydrates, 193

B

Basal metabolic rate, of rats, effect of food extracts, 203
Behavior,
effects of growth hormone and pituitary extract, on offspring of undernourished rats, 321
_____ pitiutary hormone in offspring of underfed rats, 223
offspring of zinc deficient rats, 309
Biological value, of proteins, evaluation in man, 45
Birthweight, and infant mortality, relationship to maternal nutrition, 533
Body composition, of rats, effect of meal frequency, 9
Body fat, in normal healthy adults, evaluation of analytical methods based on anthropometry and age, 157
Brain development,
effect of prenatal nutritional factors, 371
species extrapolation, 401
Brain metabolism, effects of neonatal infection and maternal malnutrition, 333

C

Calcium,
absorption, in rats, effect of excess dietary calcium, 103
dietary, effect of excess on absorption of nitrogen, phosphorus and calcium in rats, 103
_____, _____ on calcium and lipid content of rat tissues, 121
Calorie deficiency, maternal diet, effect on rat offspring, 361

Carbohydrates,
dietary, athrogenicity comparison in rabbits, 193
_____, effect on protein utilization in rats, 175
Cardiovascular disease, in man, relationship to trace elements, water hardness and chemical composition of rocks and soils, 51
Casein,
and pancreatic juice proteins, comparative digestibility in rats, 643
effect on cholesterol metabolism in rats, 61
Catfish, nutritional quality for rats, 141
Cell proliferation, effect of level of nutrition of rats, 271
Cereals,
protein enriched, effect on PER and weight gain in rats, 111
_____, implications for maternal nutrition, 555
Coconut oil, effect on cholesterol metabolism in rats, 61
Cornmeal, effect of lysine fortification in phenylketonuric patients, 229
Corn oil, effect on cholesterol metabolism in rats, 61
Cortisol, effect on amino acid imbalance in rats, 633
Chickens, effect of sulfate on growth, 19

D

Developing nations, planning and evaluation of nutritional programs for children, 71
Development,
metabolic and behavioral, effect of perinatal undernutrition, 437
of brain, in different species, effects of malnutrition, 401
offspring, effect of maternal nutrition, 241-602
_____, _____, introduction, 247
_____, _____, summary, 349
Dextrose, dietary, effect on cholestrol metabolism in rats, 61
Diet(s),
of children, improvement in developing countries, an evaluation, 71
maternal, long term effects in mice, 463
_____, restriction, effect on hydroxyproline excretion in offspring, 475
Dietary supplementation, in pregnancy and lactation, effects on offspring in human population, 517

E

Ecosystem, nutritional, a conceptual model for man, 33
Enzyme(s), of rat livers, on the nature of the starve-refed response, 133

F

Family planning and food production, and improvement of human progeny, 569

Fat,
dietary, effect on calcium and lipid content of rat tissues, 121
_____, _____ cholesterol metabolism in rats, 61
Fertility, effect of nutrition, in Mexican women, 1
Fish protein concentrate (FPC), nutritive value for mice, 181
Fish solubles, effect of sulfate on growth of chicks, 19
Flavonoids, effect on BMR of rats, 203
Food production and family planning, and improvement of human progeny, 569
Fructose, dietary, athrogenicity in rabbits, 193

G

Glucose 6-phosphate dehydrogenase (G6PD), induction in rat liver in starvation and refeeding, 133
Growth factor, unidentified, in chicks, 19
Growth hormone, effect on behavior of offspring of undernourished rats, 321
Growth, in rats, effect of meal frequency, 9

H

Heat production, in rats, effect of meal frequency, 9
Hormonal factors in growth, effect of protein deficiency, 289
Hormones, effect on amino acid imbalance in rats, 633
Hydroxyprolinuria, in growing rats born to diet-restricted dams, 475

I

India, planning and evaluation of nutritional programs for children, 71
Infant mortality, and birthweight, relationship to maternal nutrition, 533
Infection,
effect of malnutrition on resistance of rats, 407
neonatal, effect on brain metabolism, 333
Insulin, effect on amino acid imbalance in rats, 633
Iron, biological value for rats, 151

K

Kittens, effect of dietary protein quality on growth, PER, NPU and NPR, 621

L

Lactose, dietary, athrogenicity in rabbits, 193
Legume seeds, amylase inhibitors, 169
Leucine, incorporation in rat tissues, in retinol fed animals, 85
Lipid content, of rat tissues, effect of dietary calcium and fat, 121

Lung, neonatal development, effect of maternal protein malnutrition, 253
Lysine fortification, of cornmeal, effect in human phenylketonuric patients, 229
Lysine supplementation, of wheat and rice diets, in rats, 93

M

Malic enzyme (ME), induction in rat liver in starvation and refeeding, 133
Malnutrition,
and brain development, species differences, 401
effect on response to infection, 407
human populations, national priorities - introduction, 511
_____, _____ - summary, 591
marginal, effects on rat colony, 487
maternal, effect on brain metabolism of progeny, 333
Maternal,
diet, calorie deficient, effect on rat offspring, 361
____, long term effects in mice, 463
____, restriction, effect on hydroxyproline excretion in offspring, 475
nutrition, development of the offspring - introduction, 247
_____, _____ - summary, 349
_____, effect on development of offspring, 241-602
_____, human population, prospective study in Taiwan, 517
_____, implications to humans, broad perspectives - introduction, 511
_____, _____, _____ - summary, 591
_____, importance during gestation and lactation - introduction, 353
_____, _____ - summary, 457
_____, improvement of human progeny, implications, 569
_____, pregnancy, trial of supplementation in human population, 547
protein deficiency, persistent effects in postnatal rats, 421
Meal frequency, effect on growth, digestibility, body composition and metabolism of rats, 9
Mexico,
effect of nutrition on reproduction in humans, 1
nutrition and development of infants, utilization of breast milk, 603
planning and evaluation of nutritional programs for children, 71
Mice,
effect of FPC on growth, reproduction and lactation in five generations, 181
long term effects of maternal diet alterations, 463
Milk, breast, differences attributable to sex in utilization by poor Mexican infants, 603
Mitochondrial function, neonatal lung, effect of maternal diet, 253

N

Nigeria, planning and evaluation of nutritional programs for children, 71

Nitrogen,
absorption, in rats, effect of excess dietary calcium, 103
in hind limb of rats, correlation with whole carcass concentration, 25
retention, in rats, effect of meal frequency, 9
Nutrient conservation, in man, use of a nutritional ecosystem, 33
Nutrition,
and growth of infants from poor rural areas, longitudinal study, 603
___ pregnancy, adaptations in protein metabolism, 383
effect on cell proliferation rates, RNA, protein syntheses, in rats, 271
_____ of maternal dietary supplementation, in humans, 517
factors in perinatal life - introduction, 353
_____ - summary, 457
maternal, effect on development of offspring, 241-602
_____, _____ - introduction, 247
_____, _____ - summary, 349
_____, _____ fertility, in humans, 1
_____, human quality, national priorities - introduction, 511
_____, _____, _____ - summary, 591
_____, protein quality improvement of cereals, 555
_____, relationship to birthweight and infant mortality, 533
persistent effects of maternal protein deficiency, 421
prenatal, effect on brain development, 371
programs, in developing countries, planning and evaluation for children, 71
supplementation during pregnancy, trial in human population, 547

P

Pancreatic juice protein and casein, comparative digestibility in rat, 643
Peanut flour, nutritive value blended with wheat and soybean flours in rats, 111
Perinatal life,
influence of nutrition factors - introduction, 353
_____ - summary, 457
undernutrition, effect on metabolic and behavioral development, 437
Phenylketonuria, in humans, effect of a high lysine cornmeal diet, 229
Phospholipids, in rat brain, effect of retinol feeding, 209
Phosphorus absorption, in rats, effect of excess dietary calcium, 103
Physical exercise, in man, effects on amino acid and ammonia levels, 611
Pituitary,
extract, effect on behavior of offspring of undernourished rats, 321
hormone, effect on behavior of offspring of underfed rats, 223
Pollution, prevention by a model nutritional ecosystem, 33
Potassium chloride, dietary levels, effect of dietary protein on rat skeletal muscle growth, 655
Pregnancy,
adaptations in protein metabolism, 383
nutritional supplementation, human population trial, 547

Prenatal,
and postnatal malnutrition, effect on response to infection, 407
nutrition, effect on brain development, 371
Protein,
and RNA, rat tissues, effect of level of nutrition, 271
deficiency, effect on reproduction, 289
_____, _____ rat colony, 487
_____, maternal, effects in postnatal rats, 421
dietary, effect on skeletal muscle growth in normal and potassium-chloride depleted rats, 655
metabolism, adaptations during pregnancy, 383
quality, assessment in the rat, 25
_____, dietary, effects on growth PER, NPR and NPU in kittens, 621
_____, improvement in cereals, implications for maternal nutrition, 555
restriction, maternal, effect on neonatal lung development, 253
utilization, effect of carbohydrates, in rats, 175
Pyruvate metabolism, in rat liver mitochondria, effect of Theophylline, 215

R

Rabbits, carbohydrate induced atherosclerosis, 193
Rapeseed protein, detoxified, effect on reproduction in the rat, 647
Rats,
effects of marginal malnutrition, longitudinal study, 487
_____ maternal calorie deficiency on offspring, 361
elderly, effect of dietary calcium on calcium and lipid content of tissues, 121
gestating, effect of detoxified rapeseed protein on reproduction, 647
growing, nutritional value of rice and wheat proteins, 93
_____ and young, effect of excess dietary calcium on nitrogen, potassium and calcium, 103
newborn, effect of pituitary extract on behavior in undernutirtion, 223
pathogen-free, starve-refeed response of liver enzymes, 133
weanling, biological value of reduced iron, 151
_____, effect of carbohydrates on protein utilization, 175
_____, _____ hormones on amino acid imbalance, 633
_____, _____ protein enriched cereals on PER and weight gain, 111
_____, nutritive value of cooked catfish, 141
_____, protein quality assessment, 25
young, comparative digestibility of casein and pancreatic juice proteins, 643
_____, effect of dietary protein level on skeletal muscle growth, 655
_____, _____ food extracts on BMR, 203
_____, _____ meal frequency, 9
_____, _____ retinol on brain phospholipids, 209
_____, _____ on protein metabolism, 85
_____, _____ theophylline of pyruvate metabolism, 215
_____, _____ various diets on lipid metabolism, 61

Reproduction,
effect of detoxified rapeseed protein in the rat, 647
_____ nutrition, in Mexican women, 1
_____ protein deficiency, 289
_____ zinc deficiency, 309
Retinol,
effect on brain phospholipids in rats, 209
_____ protein metabolism in rats, 85
Rice diets, effect of lysine and/or threonine, on PER, weight and body water in rats, 93

S

Soil and rock composition, relation to cardiovascular disease in man, 51
Soybean flour, nutritive value blended with wheat and peanut flours in rats, 111
Starve-Refeed response, of rat liver enzymes, 133
Sulfate, in fish solubles, as UGF for chicks, 10

T

Theophylline, effect on pyruvate metabolism in rat liver mitochondria, 215
Threonine supplementation of wheat and rice diets, in rats, 93
Trace elements, relation to cardiovascular disease, in man, 51
Turkey, planning and evaluation of nutritional programs for children, 71

U

Undernutrition, perinatal, effects on metabolic and behavioral development, 437

V

Vitamin A,
and protein metabolism in rats, 85
effect on brain phospholipids in rats, 209

W

Water hardness, relation to cardiovascular disease in man, 51
Wheat diets, effect of lysine and/or threonine, on PER, weight and body water in rats, 93
Wheat flour, nutritive value blended with peanut and soybean flours in rats, 111

Z

Zinc deficiency, effect on reproduction and behavior of offspring, 309

Vol. 7 1973

JANUARY—JUNE

GUIDE FOR AUTHORS

NRI invites concise reports of original research in the area of clinical and experimental nutrition. The purpose of NRI is to provide a medium for the rapid communication of advances and newer knowledge of nutrition, nutritional biochemistry and food science. Publication of original reports on all aspects of nutrition, within 90 days of manuscript receipt is anticipated. Authors will be advised of disposition of the manuscript within 30 days of its receipt. Manuscripts should be sent to:—

Anthony A. Albanese, Ph.D.
Editor-in-Chief
Nutrition Reports International
The Burke Rehabilitation Center
White Plains, New York 10605

Authors outside the United States should address manuscripts to a corresponding editor in their own country. Authors in countries not represented by a corresponding editor should send their manuscripts directly to the Editor-in-Chief.

Guide for Authors and Typing Form are available upon request from the Editors.

NUTRITION REPORTS INTERNATIONAL is published monthly by
Geron-X, Inc., Publishers, Box 1108, Los Altos, California 94022, U.S.A.

Two volumes per year

Personal Subscriptions	$30.00 per year
Institutional Subscriptions	$50.00 per year
(Add $2.40 for postage outside U.S.A.)	
Individual issues	$4.50 each

©Copyright 1973, Geron-X, Inc.

NUTRITION REPORTS INTERNATIONAL

Volume 7, Number 1 January 1973

ORIGINAL ARTICLES

Nutrition and Development of Infants from Poor Rural Areas III. Maternal Nutrition and Its Consequences on Fertility
A. Chávez and C. Martínez 1

Effect of Frequency of Meal on the Growth Rate, Nutrient Digestibility, Body Composition, Nitrogen Retention and Heat Production of Rats
In K. Han 9

Evidence for Sulfate as the Major Portion of the Unidentified Growth Factor in Fish Solubles
C. F. Hinton and R. H. Harms 19

Protein Quality Assessment in the Rat: Correlation Between Whole Carcass and Hind Limb Nitrogen Concentration
Paul A. Lachance and Gary A. Miller 25

A Model of a Nutritional Ecosystem to Conserve Nutrients for Man
R. P. Kromann 33

Evaluation of Traditional Hypotheses on the Biological Value of Proteins
E. Kofrányi 45

International Studies on Trace Elements in the Etiology of Cardiovascular Diseases
Roberto Masironi 51

NUTRITION REPORTS INTERNATIONAL

Volume 7, Number 2 February 1973

ORIGINAL ARTICLES

Isocaloric, Isogravic Diets in Rats. II. Effect on Cholesterol Absorption and Excretion
David Kritchevsky, Robert P. Casey and Shirley A. Tepper 61

Improvement of Children's Diets in Developing Countries: An Analytical Approach to Evaluation of Alternative Strategies
John G. Chamberlin and Robert E. Stickney 71

Hypervitaminosis A and Protein Metabolism in Rats. Observations on Leucine-1-^{14}C Incorporation into Liver, Plasma and Muscle Proteins
H. C. Ahuja and U. K. Misra 85

Comparison Between Nutritional Value of Rice and Wheat Protein
Kiku Murata, Yoshiko Tanaka and Yoshie Kawaguchi 93

Effect of Excess Calcium Intakes on Absorption of Nitrogen, Phosphorus and Calcium
S. Goto and T. Sawamura 103

The Nutritive Value of Protein Enriched Cereal Foods Based on Wheat, Soybean and Peanut Flours and Containing Varying Amounts of Proteins
D. Narayanaswamy, V. A. Daniel, Soma Kurien, M. Swaminathan and H. A. B. Parpia 111

LETTER TO THE EDITOR 119

NUTRITION REPORTS INTERNATIONAL

Volume 7, Number 3 March 1973

ORIGINAL ARTICLES

Effect of Dietary Calcium and Fat on Calcium and Lipid Content of Rat Tissues
Ralphenia Diggs Pace, Lie-wen Hsu Chen and Johnnie Prothro 121

On the Nature of the Primary Stimulus for the Starve-Refeed Response of Two Rat Liver Enzymes
B. Szepesi 133

Nutritive Value of Cooked Catfish as Determined by Rat Growth and Protein and Lipid Metabolism
Josephine Miller 141

Bio-Availability of Reduced Iron
B. G. Shah and B. Belonje 151

Evaluation of Analytical Models Based on Anthropometry and Age for the Prediction of Body Fat
G. Clemente, A. Ferro-Luzzi, A. Mariani, G. Santaroni and G. B. Tranquilli 157

Amylase Inhibitors in Legume Seeds
Werner G. Jaffe, Raquel Moreno and Valentina Wallis 169

The Effect of Increasing Energy Intake on the Utilization of Dietary Protein of Various Qualities
M. F. Fuller, A. W. Boyne, T. Atkinson and R. Smart 175

NUTRITION REPORTS INTERNATIONAL

Volume 7, Number 4 April 1973

ORIGINAL ARTICLES

Biologic Adequacy of Fish Protein Concentrate in Five Generations of Mice
Paul M. Newberne, Otto Glaser and Leo Friedman 181

Experimental Atherosclerosis in Rabbits Fed Cholesterol-Free Diets. 3. Comparison of Fructose and Lactose with Other Carbohydrates
David Kritchevsky, Shirley A. Tepper and Michihiro Kitagawa . . 193

Influence of Extracts of Various Foods on the Basal Metabolic Rate of Rats

Special Issue On

THE EFFECT OF MATERNAL NUTRITION ON THE DEVELOPMENT OF THE OFFSPRING

An International Symposium
sponsored by

The Johns Hopkins University
and
The Lord Rank Research Centre

November 6-7-8, 1972
HTS Management Centre
Lane End, High Wycombe
Buckinghamshire, England

Foreword 241

Opening Remarks
Arnold A. Spicer..... 243
Roger M. Herriott..... 245

Effect of Maternal Nutrition on the Development of the Offspring

Introduction
Bacon F. Chow..... 247

Maternal Diet and Physiological Development

Effect of Maternal Protein Malnutrition on Neonatal Lung Development and Mitochondrial Function
E. J. Hawrylewicz, J. Q. Kissane, W. H. Blair and C. A. Heppner..... 253

Effect of the Level of Nutrition on Rates of Cell Proliferation and of RNA and Protein Syntheses in the Rat
Lois M. Roeder..... 271

Protein Deficiency, Reproduction, and Hormonal Factors in Growth
M. R. Turner..... 289

Discussion
E. M. Widdowson (Chairman)..... 297

Maternal Diet, Mental Development and Behavior

Reproductive Performance of Chronic Mildly Zinc Deficient Rats and the Effect on Behavior of Their Offspring
D. F. Caldwell, D. Oberleas, and A. S. Prasad..... 309

Effects of Growth Hormone and Pituitary Extract on Behavioral Abnormalities in Offspring of Undernourished Rats
M. Simonson, H. M. Hanson, L. M. Roeder, and B. F. Chow..... 321

Neonatal Infection, Maternal Malnutrition and Fetal Brain Metabolism
C. J. Lee 333

Discussion
R. H. Barnes (Chairman)..... 339

Summary
F. Mönckeberg..... 349

Nutritional Factors in Perinatal Life

Introduction
Hamish N. Munro..... 353

Dietary Components: Protein and Calories

Effect on Rat Offspring of a Maternal Diet Deficient in Calories but not in Protein
Agatha A. Rider and Maria Simonson 361

Prenatal Nutritional Factors Affecting Brain Development
Stephen Zamenhof, Edith van Marthens and Ludmila Grauel..... 371

Adaptations in the Metabolism of Protein during Pregnancy and Their Nutritional Implications
Donald J. Naismith 333

Discussion
R. J. C. Stewart (Chairman)..... 391

Relative Importance of Pre- and Post-Natal Periods

The Developing Brain: A plea for more critical interspecies extrapolation
John Dobbing ,..... 401

Pre- and Postnatal Malnutrition and Responses to Infection
Paul M. Newberne and Bryan M. Gebhardt..... 407

Special Session: National Feeding Programs

On Monday evening, November 6, 1972, a special program was held at which a group of panelists presented their views on the problems and challenges associated with national feeding programs. The session was chaired by Dr. David L. Joftes and the contributors were Drs. J. Chopra, M. J. Forman, R. Podol, H. G. Walter, and J. Yudkin.

SUBJECT INDEX TO VOLUME 8

A

Albumin reserves, as an indicator of protein nutritional status in man, 111
Alcohol, effect on hypoglycemia in man, 331
Alimentation, total parenteral as a technique for studying amino acid nutrition in sheep, 405
Amino acid(s), (see also specific amino acids)
availability of coconut meal protein in swine, 261
concentrations in rat liver, effect of excess threonine, 181
metabolism, effect of carbohydrate and fat on response to glucocorticoids, 71
non-essential, replacement by uric acid in rats, 27
nutrition, total parenteral alimentation in sheep, 405
supplementation of yeast in diets of chicks, 105
Anemia, effect of dietary cadmium in chicks, 337
Arteriosclerosis, effect of various cholesterol diets, in rabbits, 163
Audiogenic seizures, effect of neonatal folate deficiency in mice, 237

B

Basal metabolism, influence of non-dialyzable fractions of cane sugar products in rats, 175
Biotin, effect on tocopherol levels in hypercholesterolemic rats, 371
Body composition, effect of malnutrition in pregnant rats, 61
Bone density, effect of a calcium supplement in man, 119
Bovine blood, nutritive value of fractions for rats, 211
Brain,
effect of perinatal folate deficiency in mice, 219, 229
phospholipids, effect of a low protein diet in rats, 273

C

Cadmium,
dietary effect on anemia, iron absorption and cadmium binding protein, 337
_____ 25-hydroxycholecalciferol metabolism in chicks, 251
uptake, effect of cholecalciferol in chicks, 363
Calcium,
deficiency, effect in newborn chicks, 87
supplementation, effect on cholesterol, calcium, phosphorus and bone density in man, 119

Calorimetry, direct partitional, for human heat loss measurement, 357
Cane sugar, non-dialyzable fractions, effect on BMR and growth of rats, 175
Carbohydrates,
dietary, effect on amino acid metabolism response to glucocorticoids, 71
effect on hypoglycemia in man, 331
_____ lipid levels of chicks, 319
Carcass nitrogen concentration, in NPU measurements, evaluation of data, 153
Chicks,
effect of amino acid supplementation of yeast diets, 105
_____ cadmium on anemia, iron absorption and cadmium binding protein, 337
_____ 25-hydroxycholecalciferol metabolism, 251
_____ calcium deficiency on blood calcium levels in newborns, 87
_____ cholecalciferol on cadmium uptake, 363
_____ protein source on lipid levels, 319
Cholecalciferol, effect on cadmium uptake in chicks, 363
Cholesterol,
effect of dietary manipulation on rate and appearance of atheromata in rabbits, 163
serum, effect of a calcium supplement in man, 119
Cholesteryl esters, effect of dietary fat unsaturation in rats, 131
Choline deficiency, effect on lecithin and cephalin incorporation in liver and plasma, 95
Circadian rhythm, of lysine oxidation in rats, 81
Coconut meal protein, amino acid availability for swine, 261
Cortisone, effect of dietary carbohydrate and fat on amino acid metabolism response, 71

D

Diet, elemental, short-term clinical and biochemical effects in man, 49

E

Elemental diet, short term clinical and biochemical effects in man, 49
Enzyme(s)(see also specific enzymes)
effect of dietary vitamin A in rat brain and liver, 349
_____ mercury and selenium in quail, hens and rats, 419
_____ tannin content of sorghum on rat performance, 145
hepatic, effect of dietary lecithin and fructose in rats, 21
in rat liver, effect of excess dietary threonine, 181
_____ , studies on the time course of rerepression, 415

F

Fat(s),
dietary, effect on amino acid metabolism response to glucocorticoids, 71
_____, unsaturated, effect on plasma cholesteryl esters in cholesterol-fed rats, 131
Fish protein concentrate, supplementation effect on wheat diets in rats, 39
Folate deficiency, perinatal and neonatal effects in mice, 229,237,245
Fructose, effect on hepatic enzyme activities in rats, 21

G

Globin, bovine, nutritive value for rats, 211
Glycogen, cardiac, effect of dietary rapeseed oil in rats, 245
Granulocytes, intestinal mucosal, effect of chronic protein deficiency in rats, 283

H

Heat loss, in man, measurement by direct partitional calorimetry, 357
Hemin-thiamine complex, effect on growth of thiamine-deficient rats, 169
Hens, effects of mercury and selenium on serum transaminase levels, 419
Hormone(s), lipid response of rats fed high sucrose diets, 201
25-Hydroxycholecalciferol metabolism, effect of cadmium in chicks, 251
Hypoglycemia, effect of alcohol and low carbohydrate diet in man, 331

I

Iron absorption, effect of dietary cadmium in chicks, 337

K

Kidney, metal ion concentrations, effect of thiamin deficiency, 33

L

Leaf proteins, effect on weight and feed intake of hens, 313
Lecithin, effect on hepatic enzyme activities in rats, 21
Legume protein, effect on lipid levels of chicks, 319
Lipid(s),
levels, effect of protein source in chicks, 319
liver, effect of excess threonine in rats, 187

Lipid(s), continued
metabolism, response to hormones in rats fed a high sucrose diet, 201
Lipogenesis, effects of pyridoxine deficiency in rats, 393
Liver,
dehydrogenases, effect of lecithin and fructose in rats, 21
effect of perinatal folate deficiency in mice, 229
metal ion concentrations effect of thiamin deficiency, 33
phospholipids, effect of a low protein diet in rats, 273
Lysine,
oxidation, effect of feeding schedule in rats, 81
plasma levels, as an indicator for lysine supplementation in rats, 1
supplementation effect on wheat diets in rats, 39
_____ of wheat flour in rats, 1

M

Malnutrition, effect on body composition and nitrogen balance in rats, 61
Mercury, effects on serum transaminase levels of quail, hens and rats, 419
Methionine,
dietary, effect of maternal level on progeny in rats, 9
effect of maternal dietary level on development in rats, 301
Mice, effects of folate deficiency, 219, 229, 237

N

Net protein utilization, evaluation as a criterion of protein quality, 153
Neuroaminidases, effect of dietary vitamin A in rat brain and liver, 349
Nitrogen balance, effect of malnutrition in pregnant rats, 61
Nucleic acid(s), of progeny, effect of maternal dietary methionine level, 9
Nutritional status in man, albumin reserves as an indicator, 111

P

Peanut butter, enrichment of wheat protein diets, 195
Phospholipids,
in brain and liver of young rats, effect of a low protein diet, 273
__ liver and plasma, effect of choline deficiency in rats, 95
Protein,
animal, effect on lipid levels of chicks, 319
cadmium binding, effect of dietary cadmium in chicks, 337
deficiency, chronic, effect on intestinal mucosal granulocytes in rats, 283

Protein, continued
low dietary level, effect on brain and liver phospholipids in rats, 273
plasma fractions from bovine blood, nutritive value for rats, 211
quality, evaluation of criteria, 153
source, effect on lipid levels of chicks, 319
Pullets, effect of leaf proteins on weight and feed intake, 313
Pyriodoxine deficiency, effects on fat stores and lipogenesis in rats, 393

Q

Quail,
effects of mercury and selenium on serum transaminase levels, 419
Japanese, nutritive value of activated sewage sludge, 385

R

Rabbits, effect of various cholesterol diets on rate and appearance of atheromata, 163
Rapeseed oil, effect on cardiac glycogen in rats, 245
Rats,
adrenalectomized, effect of dietary carbohydrate and fat on amino acid response to glucocorticoids, 71
adult, effect of non-dialyzable fractions of cane sugar on BMR and growth, 175
cholesterol-fed, effect of dietary fat unsaturation on plasma cholesteryl ester composition, 131
choline-deficient, lecithin and cephalin incorporation in liver and plasma, 95
growing, circadian rhythm of lysine oxidation, 81
_____, effect of threonine excess on amino acids, liver enzymes and liver lipids, 181, 187
hypercholesterolemic, plasma tocopherol levels, 371
mature, effect of a high sucrose diet on response to hormones, 201
newborn, effect of maternal dietary methionine levels on litter size, body and organ weights and protein utilization, 9
nibbling and meal-fed, effect of pyridoxine deficiency on lipogenesis, 393
pathogen-free, studies on the time course of rerepression of liver enzymes, 415
pregnant, effect of malnutrition on body composition and nitrogen balance, 61
suckling, effect of maternal dietary methionine levels on development, 301
thiamin-deficient, effect of a thiamin derivitive on growth, 169

Rats, continued
weanling, effect of dietary lysine supplementation on plasma lysine levels, 1
_____, _____ rapeseed oil on cardiac glycogen, 245
_____, _____ lecithin and fructose on hepatic enzyme activities, 21
_____, _____ mercury and selenium on serum transaminase levels, 419
_____, _____ tannin content of sorghum diets on enzyme inhibition and performance, 145
_____, _____ vitamin A on neuroaminidases of brain and liver, 349
_____, _____ whey protein supplementation of wheat on growth, 39
_____, utilization of uric acid, 27
young, effect of chronic protein deficiency on intestinal mucosal granulocytes, 283
_____, _____ a low protein diet on brain and liver phospholipids, 273
_____, nutritive value of activated sewage sludge, 385
_____, _____ gelatin and plasma protein fractions from bovine blood, 211

S

Selenium, effect on serum transaminase levels of quails, hens and rats, 419
Sewage sludge, activate, nutritive value for rats and quail, 385
Sheep, total parenteral alimentation as a technique for studying nutrient requirements, 405
Skim milk, supplementation effect on wheat diets in rats, 39
Sorghum grain diets, effect of tannin content on rat performance, 145
Starch, effect on lipid levels in chicks, 319
Sucrose, effect on lipid levels in chicks, 319
Swine, amino acid availability of coconut meal protein, 261

T

Tannin content, of sorghum, effect on enzymes and rat performance, 145
Thiamin,
deficiency, effect of thiamin derivative on growth in rats, 169
_____, _____ on liver and kidney metal ion concentration in rats, 33
Threonine, effect of excess on free amino acids, liver enzymes, and liver lipids in rats, 181, 187
Tocopherol, plasma levels, effect of biotin in hypercholesterolemic rats, 371

Transaminase, serum levels, effects of mercury and selenium in quail, hens and rats, 419

U

Uric acid, utilization in rats, 27

V

Vitamin(s), (see also specific vitamins)
deficiency, effect on organ metal ion concentrations in rats, 33
A, effect on neuroaminidases of rat brain and liver, 349
D_3, effect on cadmium uptake in chicks, 363

W

Wheat,
effect of whey protein supplementation on growth of rats, 39
flour, effect of lysine supplementation on plasma lysine levels in rats, 1
proteins, enrichment with peanut butter, in rats, 195
Whey protein, supplementation effect on wheat diets in rats, 39

Y

Yeast, hydrocarbon-grown, effect of amino acid supplementation in chicks, 105

GUIDE FOR AUTHORS

NRI invites concise reports of original research in the area of clinical and experimental nutrition. The purpose of NRI is to provide a medium for the rapid communication of advances and newer knowledge of nutrition, nutritional biochemistry and food science. Publication of original reports on all aspects of nutrition, within 90 days of manuscript receipt is anticipated. Authors will be advised of disposition of the manuscript within 30 days of its receipt. Manuscripts should be sent to:—

Anthony A. Albanese, Ph.D.
Editor-in-Chief
Nutrition Reports International
The Burke Rehabilitation Center
White Plains, New York 10605

Authors outside the United States should address manuscripts to a corresponding editor in their own country. Authors in countries not represented by a corresponding editor should send their manuscripts directly to the Editor-in-Chief.

Guide for Authors and Typing Form are available upon request from the Editors.

NUTRITION REPORTS INTERNATIONAL is published monthly by
Geron-X, Inc., Publishers, Box 1108, Los Altos, California 94022, U.S.A.

Two volumes per year

Personal Subscriptions	$30.00 per year
Institutional Subscriptions	$50.00 per year
(Add $2.40 for postage outside U.S.A.)	
Individual issues	$4.50 each

NUTRITION REPORTS INTERNATIONAL

Volume 8, Number 1 July 1973

ORIGINAL ARTICLES

Plasma Lysine as an Indicator for Lysine Supplementation of Wheat Flour in Rats
J. M. McLaughlan, G. O. Korsrud and J. E. Knipfel 1

Effect of Maternal Dietary Methionine Level on the Progeny in Rats
P. Corcos Benedetti, B. Tagliamonte, M. E. Semprini and A. Mariani 9

Effect of Dietary Egg Lecithin and Fructose on Hepatic Enzyme Activities in Rats
M. L. W. Chang and M. A. Johnson 21

The Utilization of Uric Acid in Diets of Growing Rats Containing All Essential Amino Acids
Shoshana Mokady 27

Effect of Thiamin Deficiency on Liver and Kidney Metal Ion Concentrations in Rats
B. A. Friend, R. V. Williams, M. A. Mehlman and R. B. Tobin . . 33

Fortification of Wheat by Whey Protein Concentrate, Dried Skim Milk, Fish Protein Concentrate and Lysine Monohydrochloride
Elisabeth Forsum, Leif Hambraeus and Iqbal Husain Siddiqi . . . 39

Short-Term Effects of Feeding an Elemental Diet in Healthy Men
Herbert Copelan, Paul Lachance and Kasheed Mohammed 49

NUTRITION REPORTS INTERNATIONAL
Volume 8, Number 2 August 1973

ORIGINAL ARTICLES

Body Composition and Nitrogen Balance in Malnourished Pregnant Rats
Yoshiaki Niiyama, Shoji Endo, Kazumi Kamori and Goro Inoue 61

Effect of Dietary Carbohydrate and Fat on the Response of Amino Acid Metabolism to Glucocorticoids in Rats
Kiwao Nakano and Kiyoshi Ashida 71

Circadian Rhythm of the Oxidative Catabolism of Lysine in Growing Rats. Influence of Feeding Schedule
C. Obled, M. Arnal and G. Fauconneau 81

Acute Calcium Deficiency and Hypocalcemic Development in the Chick
Paul A. Thornton 87

Labeling of Liver and Plasma Phospholipids After Injection of ^{33}P-Phosphate to Choline-Deficient Rats
Shi-hua Chen and B. Lombardi 95

Amino Acid Supplementation of Hydrocarbon-Grown Yeast in Diets for Young Chicks
J. P. F. D'Mello 105

Albumin Reserves as an Indicator of Protein Nutritional Status in Man
V. Kudlicka and V. Kudlicková 111

Effect of a Calcium Supplement on Serum Cholesterol, Calcium, Phosphorus and Bone Density of "Normal, Healthy" Elderly Females
Anthony A. Albanese, A. Herbert Edelson, M. L. Woodhull, Edward J. Lorenze, Jr., Evelyn H. Wein and Louise A. Orto . . 119

Effect of Dietary Fat Unsaturation on Plasma Cholesteryl Ester Composition of Rats Fed Cholesterol
Rosemary S. Morris and Wilma C. Ross 131

The Relationship Between Tannin Content, Enzyme Inhibition, Rat Performance and Characteristics of Sorghum Grain
E. D. Maxson, L. W. Rooney, R. W. Lewis, L. E. Clark and J. W. Johnson 145

NUTRITION REPORTS INTERNATIONAL

Volume 8, Number 3 September 1973

ORIGINAL ARTICLES

Questionable Importance of Rat Carcass Nitrogen Concentration in Net Protein Utilization
G. A. Miller, M. R. Molina, M. L. Martinez and P. A. Lachance 153

Cholesterol Vehicle in Experimental Atherosclerosis. 14. Diet and Rate of Appearance of Atheromata
David Kritchevsky and Shirley A. Tepper 163

A Fluorescent Thiamine Derivative Formed by Reacting Hemin and Thiamin. Effect on Thiamine Deficient Rats
Josephine Ya-Hui Kuo and Doris M. Hilker 169

Influence of Non-Dialyzable Fractions of Cane Sugar Products on Rat Basal Metabolism and Growth
G. A. McLaren, G. C. Fahey, Jr., J. E. Williams and M. A. Blondin 175

Effect of Excessive Intake of Threonine on Free Amino Acid Concentrations, and Some Selected Enzymes in the Liver of Rats
Yet-Oy Chang and Fumi Yokota 181

Effect of Excessive Intake of Threonine on Liver Lipids in Growing Rats
Yet-Oy Chang, Glenn J. Miller and Fumi Yokota 187

Enrichment of Wheat Proteins with Peanut Butter in Rats. Implications for Diets of Young Children
M. E. Sambucetti, G. Gallegos de Scicli and J. C. Sanahuja 195

The Lipid Response to Female Gonadal Hormones, of Male Rats Fed a High Sucrose Diet
D. B. Jefferys and I. R. White 201

Volume 8, Number 4 October 1973

ORIGINAL ARTICLES

Nutritive Value of Globin and Plasma Protein Fractions from Bovine Blood.
C. R. Young, R. W. Lewis, W. A. Landmann and C. W. Dill 211

Perinatal Folate Deficiency: Effects on Developing Brain in C57BL/6J Mice.
William Shaw, Robert A. Schreiber and John W. Zemp 219

The Effects of Folic Acid Deficiency on Some Aspects of Development in DBA/2J and C57BL/6J Mice.
Robert A. Schreiber, William Shaw and John W. Zemp 229

Neonatal Folate Deficiency: Effect on Audiogenic Seizures in DBA/2J Mice.
Robert A. Schreiber and John W. Zemp 237

Effect of Dietary Rapeseed Oil on Cardiac Glycogen in the Growing Rat.
S. J. Slinger, B. J. Coates, J. A. Carney and B. L. Walker 245

Influence of Cadmium on the Metabolism of 25-Hydroxycholecalciferol in Chicks.
Stuart L. Feldman and Robert J. Cousins 251

Amino Acid Availability of Coconut Meal Protein in Swine.
John M. L. Mee and Coy C. Brooks 261

NUTRITION REPORTS INTERNATIONAL

Volume 8, Number 5 November 1973

In Memoriam: Bacon F. Chow, Ph.D., 1909–1973 271

ORIGINAL ARTICLES

Brain and Liver Phospholipids in Young Rats Fed a Low Protein (8% Casein) Diet from Birth to 7 Weeks of Age
Barbara Medwadowski and R. L. Lyman 273

The Effect of Chronic Protein Deficiency on Intestinal Mucosal Granulocytes in the Rat
D. P. Nelson and P. M. Newberne 283

Effect of Maternal Dietary Methionine Level on the Development of Suckling Rats
B. Tagliamonte, P. Corcos Benedetti, M. E. Semprini and A. Mariani 301

Preliminary Observations on the Value of Leaf Protein-Fish Mixtures as Protein Supplements for Pullets
A. A. Adegbola and O. L. Oke 313

Plasma Lipid Levels of Chicks Fed Diets Containing Legume or Animal Proteins, Legume Carbohydrates, Sucrose or Starch
K. Padma Umapathy and Mark H. Bert 319

Hypoglycemia in Humans Induced by Alcohol and a Low Carbohydrate Diet
J. M. McLaughlan, F. J. Noel and C. A. Moodie 331

Effect of Dietary Cadmium on Anemia, Iron Absorption, and Cadmium Binding Protein in the Chick
Jeanne H. Freeland and Robert J. Cousins 337

Effect of Dietary Vitamin A on the Neuraminidases of Rat Brain and Liver
D. R. P. Tulsiani and R. Carubelli 349

Human Heat Losses by Direct Partitional Calorimetry
A. R. Kotb, W. H. Pfander and M. D. Shanklin 357

ERRATUM 361

NUTRITION REPORTS INTERNATIONAL

Volume 8, Number 6 December 1973

ORIGINAL ARTICLES

Effect of Cholecalciferol on Cadmium Uptake in the Chick
Robert J. Cousins and Stuart L. Feldman 363

Elevated Plasma Tocopherols Associated with Elevated Lipids and Low Biotin Status in Adult Hypercholesterolemic Rats
Mary W. Marshall, Joanna Lehmann, Margaret Haubrich and Vestine A. Washington 371

Evaulation of the Nutritive Value of Activated Sewage Sludge with Rats and Japanese Quail
P. R. Cheeke and R. O. Myer 385

Lipogenesis in Pyridoxine-Deficient Nibbling and Meal-Fed Rats
Joseph F. Angel and Gil-Won Song 393

Total Parenteral Alimentation to Study Amino Acid Nutrition of Sheep
R. C. Tao, G. W. Wolfrom and J. M. Asplund 405

Studies on the Time Course of Rerepression of Two Rat Liver Enzymes
Bela Szepesi 415

Effects of Mercury and Selenium on Serum Transaminase Levels of Quail, Hens and Rats
S. O. Welsh, J. H. Soares, Jr., B. R. Stilling and H. Lagally 419
